Who We Are

["Project Honduras"](#) was established in 2007 as a Non-Profit organization Incorporated in the State of Oklahoma. After much consideration and research into several mission agencies it was a mutual decision by my wife and me to proceed into the Mission Field as independent missionaries. What this means in a short version is that we are not represented or supported by any mission organization. Although this is a much harder way for a missionary to go (independent) it allows for some very unique and exciting opportunities in the mission field. Probably the most important to us is where we choose to serve; in this case both my wife and I have been called to Honduras.

I have had the opportunity over many years to study Missions in a very unique way, *in the field*. I have had amazing opportunity to serve with several different churches, denominations and independent missionaries. I have learned and experienced many of the dos and don'ts and have experienced many cultural challenges and experiences. It is my impression and belief from what I have experienced and learned that International Missions can be done better, more effective and safer. Accountability and communication are lacking in missions and need both improvement and change. It is with this belief and our scripture from, Mark 12:30 kjv, that ["Project Honduras"](#) was created.
